[Call of Duty: Vanguard](#) is a great Call of Duty entry with absolutely stellar ser pieces, fantastic visuals, and plenty of modes surrounding an excellently fun campaign. The only downsides are the muddled stories & not to mention what is happening in the company that published it.

[Campaign has numerous historical inaccuracies, theres combat shields in ww2, and reticle attachments that weren't introduced until the 1980's.](#) Game also crashes consistently. It seems that Call of Duty let interns create their game to see how it would turn out/if consumers would still purchase the game and battle pass.
