&lt;p&gt;&lt;/p&gt;&lt;p&gt;Football corners predictions is one of the fairly new tips offered by tipsters and by us. Some say it&#39;s luck &#127823;  predicting corners in a football game, but we at AFootballReport find in corners very profitable markets especially in live events &#127823;  when odds go very high as the game evolves.So how do we predict corners? Of course as any other football &#127823;  prediction and corners are related to a number of pre-match and team factors. First of all we should see the &#127823;  type of game we&#39;re looking for or the type of game we want to predict. Is it a game with &#127823;  a strong favorite or just two equally strengthen teams that play. If it&#39;s a game with a strong favorite probably &#127823;  we should pay attention to the corners race predictions as strong favorites always keep the ball in possession more than &#127823;  the other teams and create more chances as they push forward almost during the whole game. Keep in mind in &#127823;  live events that if the score is in favor of the favorite team then this team would not be so &#127823;  motivated to create chances and would probably win less corners than in a draw event or from behind.&lt;/p&gt;

&lt;p&gt;Second thing we &#127823;  should use when making our corners tips is to see the teams    lineups and tactic for the upcoming game. Target &#127823;  teams with more offensive tactics and teams that use wingers heavily in their attacks. For example, some good wingers for &#127823;  the home team could easily produce more than 10-20 crosses in the penalty area which very often defenders clear in &#127823;  corners.&lt;/p&gt;

&lt;p&gt;Corners in the late stage of the game are more likely to happen than in the early minutes. Usually teams &#127823;  are very careful in the opening minutes of a football game and they try to enter the game more passively &#127823;  than aggressively. As the game continues depending on whether a team is losing or winning the game is leading to &#127823;  pushing forward and sending more players to attack or defend. This leads to significantly increasing the number of corners in &#127823;  the last minutes and that is what we want when predicting corners.&lt;/p&gt;

&lt;p&gt;Spot derby games. Derby games are always poor in &#127823;  goals, but
