<p>Terrible game.</p>

<p></p>

<p></p>

<p></p>

<p>I just bought this, as 💱 I was looking for a game that is exac

tly this premise. Alas, when I found this game, I bought it 💱 and I was

extremely disappointed. Just loading up the game took forever, and I kept havin

g to close and reopen 💱 it. When it finally opened, it took 17 minutes

just to do that. Yeah. Now it's not like I have 💱 a terrible laptop

, my laptop is really good and I've never had any issues with such a thing.

Then, upon 💱 opening the game, I couldn't look around because the d

efault settings were set to ultra. For the record, I don't 💱 really

have an issue with game devs doing this, but it leaves a bitter taste in your m

outh. I had 💱 to set the quality to very low and even then it was still

so laggy. It was 2 fps at 💱 the most (like, not stretching the truth h) Tj T* BT /F

ite literally just pixels. The game was also very repetitive, so even if you hav

e a NASA super-computer 💱 you will get bored of this really quickly. I

do not suggest this to anyone, no matter how enticing it 💱 looks. It wa

s terrible and so incredibly frustrating; especially because I kept having to me

ddle with the settings and make 💱 the game actually playable (spoiler a) Tj T* BT ,

so 💱 happen to have amnesia this game would be quite enjoyable, but unf

ortunately I see a lot of people having the 💱 same disappointment as I

am. I really wish I could have this refunded, even just half of the money I 

8177; spent on this. I'm unsure if Steam would let that happen, so for now

I just suggest you don't get 💱 this game unless you get it free som
