<p&gt;&lt;/p&gt;&lt;p&gt;To fully exploit the constrained width, avoid loadin
g the neighbouring structures and straddle shared utilities running under the si
te, the 🍏 house was constructed using a lightweight steel frame on a pi
led slab. The steelwork was prefabricated as a series of 🍏 portal frame
s that were craned down the alley and site-welded together. Given that every inc
h in such a narrow space 🍏 was valuable we chose to fully weld the conn
ections and express the frame internally, even utilising the depth of the &#1278
23; steels to maximise the space.</p&gt;
<p&gt;Alongside the painted steel a simple palette of spruce plywood, douglas
fir joists, terrazzo and cork 🍏 flooring enriches the interior. Extern
ally the timber framed walls are clad in handmade pewter glazed brick slips with
a patina 🍏 that reflects the changing light of the sky. Both the simple
y landscaped and planted rear courtyard and the garden in 🍏 front of the
e house enhance the feeling of space in this small dwelling.</p&gt;
<p&gt;This self-build project had a long gestation, fitted &#127823; in arou
