<p>rista de futebol tinha dito isso durante a transmiss#227;o. O grupo en  
t#227;o dirigiu-se em</p>  
<p></p><p>To fully exploit the constrained width, avoid loadin  
g the neighbouring structures and straddle shared utilities running under the si  
te, the #128183; house was constructed using a lightweight steel frame on a pi  
led slab. The steelwork was prefabricated as a series of #128183; portal frame  
s that were craned down the alley and site-welded together. Given that every inc  
h in such a narrow space #128183; was valuable we chose to fully weld the conn  
ections and express the frame internally, even utilising the depth of the #1281  
83; steels to maximise the space.</p>  
<p>Alongside the painted steel a simple palette of spruce plywood, douglas  
fir joists, terrazzo and cork #128183; flooring enriches the interior. Extern  
ally the timber framed walls are clad in handmade pewter glazed brick slips with  
a patina #128183; that reflects the changing light of the sky. Both the simpl  
y landscaped and planted rear courtyard and the garden in #128183; front of th  
e house enhance the feeling of space in this small dwelling.</p>  
<p>This self-build project had a long gestation, fitted #128183; in arou  
nd professional and family life. The design and construction were developed as t  
ime and money allowed so whilst planning #128183; consent was given in January  
2014 and the ground works commenced in the spring of 2024, the building was not  
#128183; completed until August 2024. We worked closely with friend and joine  
r Michael Tye to lead a small team of local #128183; subcontractors and employ  
ed specialist fabricators for certain key packages as well as undertaking a fair  
amount of the work ourselves.</p>  
<p>The #128183; result is a unique and highly crafted home that is a tes  
tament to the commitment, effort and support of many #128183; people. By repla  
cing a narrow disused alley with this comfortable small home we hope to have enh  
anced the streetscape we #128183; inhabit. As the building completes the terra  
ce, so does the front garden - with the simple bin store, planting, level #1281  
83; access and bike parking we aimed to keep it open and reinforce the pavement  
line without making a hard boundary. #128183; The development highlights the  
viability, both economically and spatially of small brownfield sites to provide  
high quality sustainable development at #128183; a time of housing shortage. W
